

Communication Plan

Introduction:

The Lincolnshire Safeguarding Adults Board (LSAB) are proposing to adopt the following communication plan regarding the management of communications relating to enquiries and statements about specific cases, the role of the LSAB and general safeguarding adults at risk topics.

Role of the LSAB:

The role of the LSAB is to:

- Be the decision making body for multi-agency adult safeguarding policies and procedures.
- Ensure the effectiveness of what each of its members does
- Lead a commitment to improve outcomes for adults at risk of harm from others

One of its core functions is to communicate the importance of adult safeguarding widely to communities and all those delivering services and to provide guidance on how to prevent adults being exposed to the risk of/or experiencing abuse or neglect and how to seek help and support.

Our communication principles:

- To be focused and targeted, getting the right message in the right means to the right audience
- To do what we say we will do so that we maintain credibility and reputation.
- To encourage two way communication with professionals, from whichever sector, and also the public
- To be timely, making sure that information is available when it should be
- To be clear, using plain language and other formats if required and where possible
- To be creative and to make sure that we use a variety of methods of communication including the use of social media
- To maximise all opportunities to portray the positive aspects of the work of the Board in the media.

Aims:

The overall aim of this Communication Plan is to increase and improve people's understanding and awareness of the work in relation to Adult Safeguarding within Lincolnshire and to ensure effective reporting. We will provide direction to our partner organisations so that we can achieve effective, consistent, organised and targeted communication.

To support this overall aim, the objectives of the plan can be broken down into three main areas:

- To promote public awareness; including how everybody can contribute to safeguarding by primarily keeping themselves safe, and contributing to the safety of others as part of a prevention approach;
- To promote awareness across partner agencies and other organisations within Lincolnshire; including statutory, independent and voluntary agencies, of how they should co-operate to safeguard and promote the welfare of adults at risk and ensure that developments and learning in safeguarding practice are widely communicated;
- To ensure an effective process for communicating with the media, thereby promoting public confidence in the arrangements for safeguarding and promoting the prevention of abuse.

Our Communication Plan is summarised in the following table as well as identifying key events throughout the coming year:
