

## **LINCOLNSHIRE COUNTY COUNCIL'S RESPONSE TO CONSULTATION ON THE FOLLOWING DEVELOPMENT PROPOSAL**

**District: Lincolnshire County Council**

**Application number: PL/0108/24**

**Application Type: Condition Variation**

**Proposal: To vary condition 5 of planning permission W66/131058/14 to increase annual throughput tonnage**

**Location: Mansgate Chalk Quarry, Mansgate Hill, Nettleton**

**Response Date: 25 November 2024**

This report includes the Substantive response of the Local Highway and Lead Local Flood Authority to a planning consultation received under the Development Management Order and includes details of any planning conditions or informatives that should be attached in the event that permission is granted and any obligations to be secured by way of a S106 agreement.

### **General Information and Advice**

Please note that although the Definitive Map and Statement proves the existence of any recorded rights of way, there may be further or higher rights that are not shown on this document that the County Council is not currently aware of. This would be especially relevant where the public has had informal access to the site or where there are references to routes across this in maps or other historic documents. As the County Council has received no application to recognise further rights of way affecting the site, no more informed guidance can be offered at this stage.

**Application number: PL/0108/24**

**Application Type: Condition Variation**

**Location: Mansgate Chalk Quarry, Mansgate Hill, Nettleton**

## **Highway and Lead Local Flood Authority Report**

**Substantive Response provided in accordance with article 22(5) of The Town and Country Planning (Development Management Procedure) (England) Order 2015:**

### **Recommendation: No Objections**

Having given due regard to the appropriate local and national planning policy guidance (in particular the National Planning Policy Framework), Lincolnshire County Council (as Highway Authority and Lead Local Flood Authority) has concluded that the proposed development would not be expected to have an unacceptable impact upon highway safety or a severe residual cumulative impact upon the local highway network or increase surface water flood risk and therefore does not wish to object to this planning application.

### **Comments:**

The proposal is for amendments to condition 5 that already has approval under PL/0056/24. The amendments proposed will not have an adverse impact upon the public highway or surface water flood risk.
